Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 6-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Hartikainen et al. (U.S. 6,298,377).

Hartikainen et al. teach a remote acquisition unit for collecting measurement data detected by sensors in the power stations (see col. 2, lines 40-60 and col. 1, lines 8-11); a local diagnostics unit connected to the acquisition unit (i.e. device agent) for classification of operating states of the power stations that are represented by the measurement data (see col. 4, lines 4-21) a memory unit connected to the acquisition unit and the local diagnostics unit and the measurement data is centrally stored (see col. 3, lines 44-50 and col. 3, line 65 to col. 4, line 3); and a server unit connected to the memory unit that generates machine-readable data based on an HTML language (see col. 4, lines 4-21 and col. 3, lines 45-60).

Regarding plurality of remote stationary power stations (claim 12), Hartikainen et al. further teach diagnosing a plurality of remote stationary power stations (i.e. plurality of intelligent field devices) (see col. 4, lines 35-44)

Response to Arguments

3. Applicant's arguments filed 10/31/05 have been fully considered but they are not persuasive.

Applicant argues that Hartikainen et al. the limitation of memory unit is connected to acquisition unit and the local diagnostics unit.

Examiner disagrees with the Applicant's argument because Hartikainen et al. teach the database is connected to both the diagnostics unit and the field device, the field device contains a field agent, this field agent is considered to be the acquisition unit. Examiner maintains the rejection of claims 6-17.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Prior art

5. The prior art made record and not relied upon is considered pertinent to applicant's disclosure:

Sampath et al. ['317] disclose system and method for failure prediction, diagnosis and remediation using data acquisition and feedback for distributed electronic system.
